# gargi enterprises

An ISO 9001:2015 certified by TUV NORD

GARGI ENTERPRISES, Bangalore an ISO 9001:2015 certified by TUV NORD was established in the Year 1982 as a proprietorship company promoted by Mr. Nagesh.G.V., who have an extensive experience in the field of industrial plastic and pressed components manufacturing. We are one of the leading manufacturers of high quality industrial plastic injection and pressed components, tooling and sub-assemblies catering to electrical, electronics, heavy engineering, telecom and power equipment industries. We are front line exporters to international companies located in Germany, Italy, Bulgaria and Australia

## About US

With the humble beginning Four decades ago, we are able to scale up the company business to 55 million (Indian Rupees). We offer one stop solution to our customers with state of the art injection molding machines ranging from 20T to 140T. our tool room is equipped with Milling, Surface grinding, EDM machines, etc. We are capable of producing components from 5 Grams to 350 Grams with input raw material like PET, PBT, PC. PC/ABS, PPS, Polyamide, Polyacetal and other engineering plastics as per customer requirement. We have in-house design department to make customized product development as per customer requirements. We offer the best support to co-ordinate with the customer in getting the right requirement executed and achieved through out design and manufacturing process. We are committed to total customer satisfaction by meeting their evolving need, expectations and aspirations stated, implied or latent. We have in place a team and professionally trained and experience personnel.

## Our Vision

To be a customer oriented company, the most desired brand and supplier choice in every industry we serve.

## Our Mission

It is our mission to distinctively design and manufacture premium client focused, cost effective, high standard and high quality products so that we may endeavor highest standards while ensuring 100% customer satisfaction.

## Our Core Values

# Our Leadership

Our people are our most valuable asset. Each member of the management brings expertise and through leadership to the team helping create the unique culture and synergistic energy that has shaped our success. At GARGI, we are fully committed to developing and promoting a circular economy that benefits our stake holders through innovation leadership, necessary operational restructuring and continued growth opportunities as we hold leading industry position for all our products.
